## ABUTA calls for ceasework of JU teachers on April 6

Kolkata: The West Bengal University Teachers' body today called a ceasework by teachers in the state on April 6 in protest against the Centre's alleged move to privatise and deregulate the education sector.

ABUTA JU Convenor Goutam Maity said, the ceasework has been called to safeguard the interest of public-funded universities and demand for the withdrawal of the graded autonomy regulation of the University Grants Commission (UGC).

He said the Centre's move to grant graded autonomy was aimed at taking away the right to education of the people.

He said the Centre was trying to commercialise and privatise higher educational institutions in the country and vest their functioning power with itself.

He demanded the state-aided university teachers be given Dearness Allowance on par with those of central universities.

He called for repealing the West Bengal Universities and Colleges (Administration and Regulation) Act, 2017 calling it a "black act".

# 2G internet services restored in Valley except south Kashmir

Srinagar, Apr 2 Low-speed mobile Internet services were restored in the Valley today, except in south Kashmir districts, after remaining suspended since yesterday in the wake of counter-militancy operations.

"Low-speed mobile internet (2G) services have been restored in the valley, except in four districts of South Kashmir," a police official said.

He said the services were restored in Srinagar and other districts following improvement in the situation.

However, the high-speed mobile internet facility continued to remain barred across the Valley, he said.

The mobile internet services were snapped yesterday across the Kashmir valley as a precautionary measure in the wake of the killing of 13 militants and four civilians in three encounters in south Kashmir with security forces.
